Sacyr 30 years

Sacyr is founded under the name "Sociedad Anónima de Caminos y Regadíos" in 1986 thanks to the initiative of a small group of professionals with broad experience and their clients' trust.

During the first five years, Sacyr grew continuously with activity concentrated on public works projects, until the company's consolidation in 1990, when it was awarded a large contract in the highway Alhama-Puerto Lumbreras.

International expansion

In the mid 1990's, Spanish companies began to operate abroad. Thus it was in 1996 that Sacyr was awarded the concession of the highway Los Vilos-La Serena, which created in turn the company Sacyr Chile.

Diversification of activities

In the new millennium, Sacyr's position among Spanish construction companies was consolidated; it completed significant projects both in Spain and abroad, and it made progress in the diversification of activities by promoting the synergy among the Group's business areas: construction, concessions and services, to which was added promotional and property activities after the merger with Vallehermoso in 2003.

Sacyr's consolidation

The last decade witnessed Sacyr's consolidation as a construction company at the international level. With presence on five continents, Sacyr Group is able to carry out complex infrastructure and service projects that contribute to improve citizens' quality of life. Some examples of this are: the third set of locks on the Panama Canal, the desalination plant in Perth, Australia, the hospital in Antofagasta, Chile, and the refinery in La Pampilla, Perú, among others.
