SACYR FOUNDATION AND REMENTERÍA FOUNDATION SIGN COLLABORATION AGREEMENT TO PROVIDE EYE CARE FOR PEOPLE AT RISK

- **Sacyr Foundation will financially support the purchase of materials and medicine that will benefit between 700 and 1,500 people.**

Madrid, July 9, 2024.- Manuel Manrique, Chairman of the Sacyr Foundation, and **M^a Luz Capelo**, Chairwoman of the Rementería Foundation, have formalized this partnership to fund the purchase of ophthalmological materials and medicine for people at risk of social exclusion.

This agreement will **directly impact 700 to 1,500 people, and around 3,000, indirectly.**

Both foundations are committed to providing opportunities for individuals at risk of social exclusion. The Rementería Foundation, based in the Community of Madrid, supports multiple healthcare centers, and delivers essential eye care services aimed at enhancing the quality of life for patients.

The collaboration underscores a shared **awareness, purpose, and commitment to sustainable values**. This approach aims to maximize positive outcomes from a human, environmental, social and corporate governance standpoint, while minimizing the ecological footprint, promoting both social and labor improvements.

About Sacyr Foundation

[Sacyr Foundation](#) is deeply committed to advancing the Sustainable Development Goals (SDGs) through collaborations with social organizations and initiatives that drive community impact and sustainable development.

MEDIA RELEASE

In 2023, over 430,000 individuals directly or indirectly benefitted from Sacyr Foundation initiatives.

About Rementería Foundation

Established in 2011 by the late Dr. Laureano Álvarez-Rementería, Rementería Foundation is a nonprofit organization dedicated to sharing extensive ophthalmological expertise and addressing the health needs of underserved populations.

The foundation sponsors blind Paralympic athletes, collaborates with educational institutions specializing in ophthalmology, conducts multiple international expeditions annually for eye examinations and surgeries, and actively engages in local social initiatives to support vulnerable individuals and communities.
