## **PRESS RELEASE**

# **SACYR, TO BUILD UNIVERSIDAD EUROPEA'S SCHOOL BUILDING IN MALAGA WITH BUDGET OVER €40 MILLION**

- **The project is developed on a 22,000 sqm plot and will have a main building featuring a 27,000 sqm built surface.**

**Malaga, February 5, 2025.-** Sacyr Engineering and Infrastructure is set to conclude the construction of the **Universidad Europea of Andalusia in Malaga** before the start of the new 2025/2026 school year. The project, which has a budget over €40 million, is located on a 22,418 sqm plot in the Teatinos university district, northwest of Malaga.

The **main building will span 27,000 sqm of built surface area** and will have spaces for collective use, laboratories, and classrooms.

Construction work began last year and will conclude so that the university becomes operational at the beginning of the 2025/2026 school year.

### **Five interconnected blocks**

The main building **will be divided into five connected blocks that will feature two underground floors and three floors**. The circulation area is located on the axis of the main body, connecting the entire complex: classrooms, laboratories and gardens.

The [new campus of the Universidad Europea of Andalusia](#) will open its doors next school year with three new school buildings: Biomedical and Sports Sciences, Social Sciences and the Polytechnic School.

This project's proposition by architect **José Seguí**, is to create a functional "city within the city", surrounded by green areas and with sustainability as a fundamental axis.
