SACYR COMPLETES CONSTRUCTION OF THE US-59 HIGHWAY IN DIBOLL (TEXAS, UNITED STATES)

- **This project marks Sacyr's 10th road infrastructure project completed in the United States, with a total executed investment of \$1.2 billion (€1.03 billion)**

Madrid, January 13, 2026.- Sacyr has completed the **construction of the US-59 highway in Diboll, Texas (USA), with an investment of \$146 million (€125 million).** This strategic infrastructure is part of the future **Interstate 69 corridor**.

With this project, Sacyr has now delivered **10 road projects in the United States—two in Texas and eight in Florida**—thereby consolidating its presence in the US market with a **total executed investment exceeding \$1.2 billion (€1.03 billion).**

The US-59 project involved the construction of a new **13.2-kilometer highway** to improve regional connectivity and enhance traffic flow along one of the state's main routes. The new highway bypasses the city of Diboll, eliminating local traffic, level crossings and traffic lights, resulting in **improved road safety, shorter travel times and smoother traffic flow.**

Construction of the new US-59 highway

The main works on this project involved the construction of **28 bridges and the installation of 12,000 meters of concrete barrier.** More than 172,000 tons of asphalt pavement were laid.

This is the second project Sacyr has completed for the Texas Department of Transportation (TxDOT).

PRESS RELEASE

Growth in the United States

Sacyr started operating in the US market in **2018** and has won **16 projects across the country**.

In 2024, Sacyr, as part of a consortium, was awarded its **first major transport infrastructure P3 contract in the US: a section of the I-10 highway in Louisiana**. This project will require an investment of €3 billion, of which just over €2 billion corresponds to construction.

As part of the objectives set out in its 2024–2027 Strategic Plan, the company **will expand its activity in key English-speaking markets**, including the United States, Canada, the United Kingdom, Ireland and Australia.
