SACYR SECURES €13.584 BILLION IN NEW PROJECTS, UP 41% ACROSS ALL THREE BUSINESS LINES IN 2025

- Sacyr Engineering and Infrastructures' backlog reached a record high of €12.5 billion, marking a robust 18% increase. Works for Concessions account for 73% of this total.
- Sacyr Water closed the year with a backlog of €6.979 billion, a 45% surge

Madrid, February 23, 2026.- Sacyr secured new projects valued at €13.584 billion in 2025, representing a 41% increase compared to 2024.

All three of the company's business lines contributed to this growth. **Concessions secured €6.802 billion (+7%), Engineering and Infrastructure added €4.179 billion (+33%), and Water saw a boost with €2.603 billion** in new contracts, a rise from €113 million in 2024.

Key project awards in 2025 include the concessions in Chile for **Ruta del Itata** (Northern Access to Concepción), **Ruta 68** (Santiago-Valparaíso-Viña del Mar), and **Ruta del Itata** (North Access to Concepción), and Sacyr Water's flagship project: the **Antofagasta Water Reuse Plant**.

Internationally, Sacyr's achievements last year included securing the concessions for the **Turin Health Campus and Novara's new City of Health and Science in Italy**, the concession for **access roads to Asunción on Routes 2 and 7** in Paraguay, and the construction of **Dublin Airport's vehicle underpass**.

In Spain, Sacyr added **contracts totaling €1,033 million**, primarily within the construction sector (€930 million). Among these was the €150 million expansion of Madrid Metro Line 5. Sacyr Water's contracts in Spain amounted to €103 million.

PRESS RELEASE

Sacyr's overall **backlog concluded 2025 at €67.4 billion**, reflecting a **6% increase**, or **€3,852 million**.

Specifically, the Sacyr Engineering and Infrastructures backlog **climbed to an all-time high of €12.470 billion**, demonstrating a **strong 18% increase**. **73% of this figure** pertains to **work for Concessions**, up from **71% the previous year**.

Sacyr Water's backlog soared to €6,979 million, up 45%, largely driven by a major project award in Chile: the largest reuse plant in Latin America.

Sacyr Concessions reports a **backlog of €47.7 billion**, a figure similar to the previous year after the deconsolidation of €3.5 billion following the divestment of three concessions in Colombia.
