# 01. Company overview

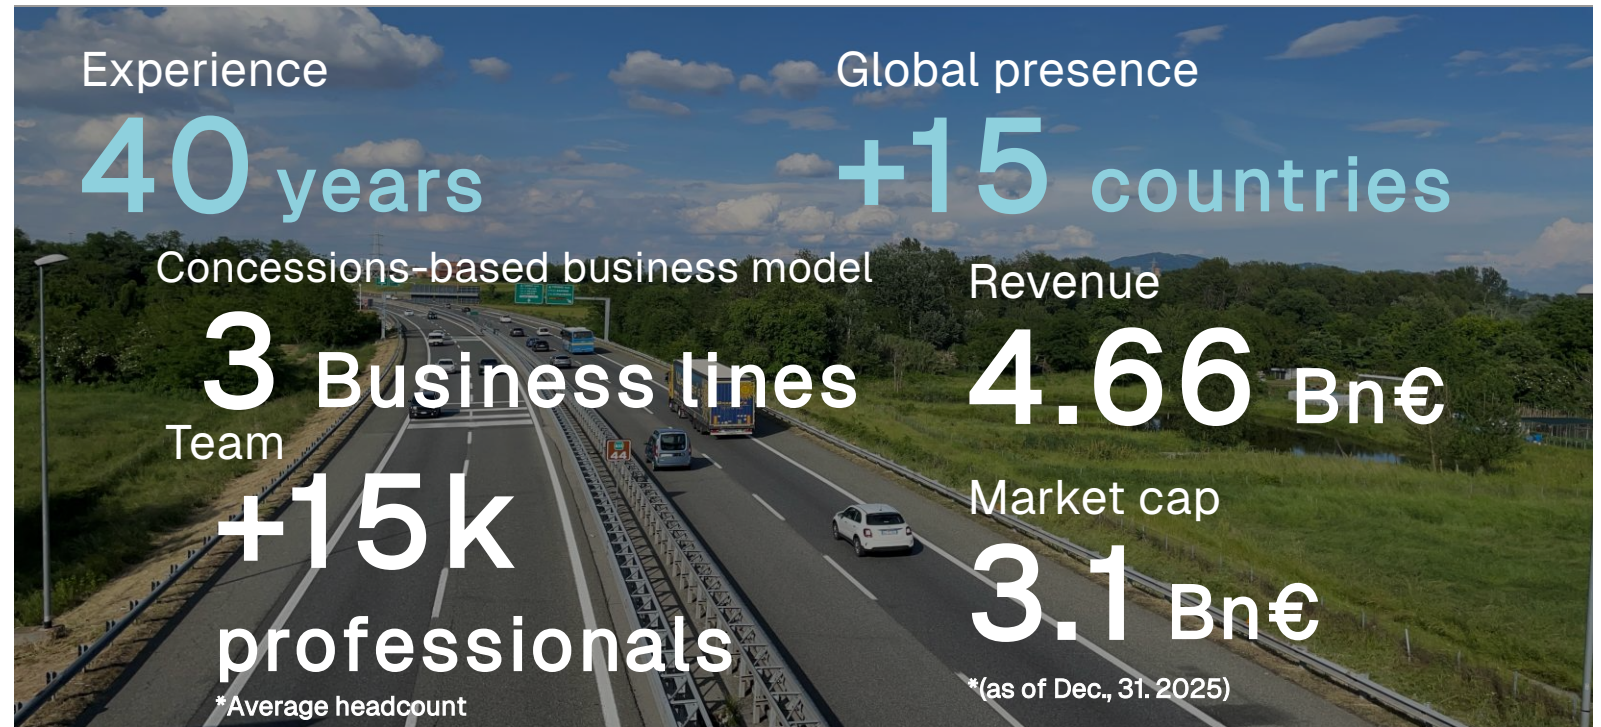

# Global overview

Building a future **that matters**

## Concessions model

We are a global concessions and infrastructure development group listed on Spain's Ibex 35 stock market index.

We put our talent at the service of progress and we take on every project as a challenge, with dedication and passion.

# Business model

Building a future **that matters**

## Concessions

We lead the development of public-private partnership projects with a diversified portfolio of healthcare and transport infrastructures.

Guaranteeing profitability and financial soundness.

## Engineering and Infrastructure

We open new paths to the future, developing civil engineering, building construction, water infrastructure, industrial and environmental projects.

Putting our talent at the service of progress.

## Water

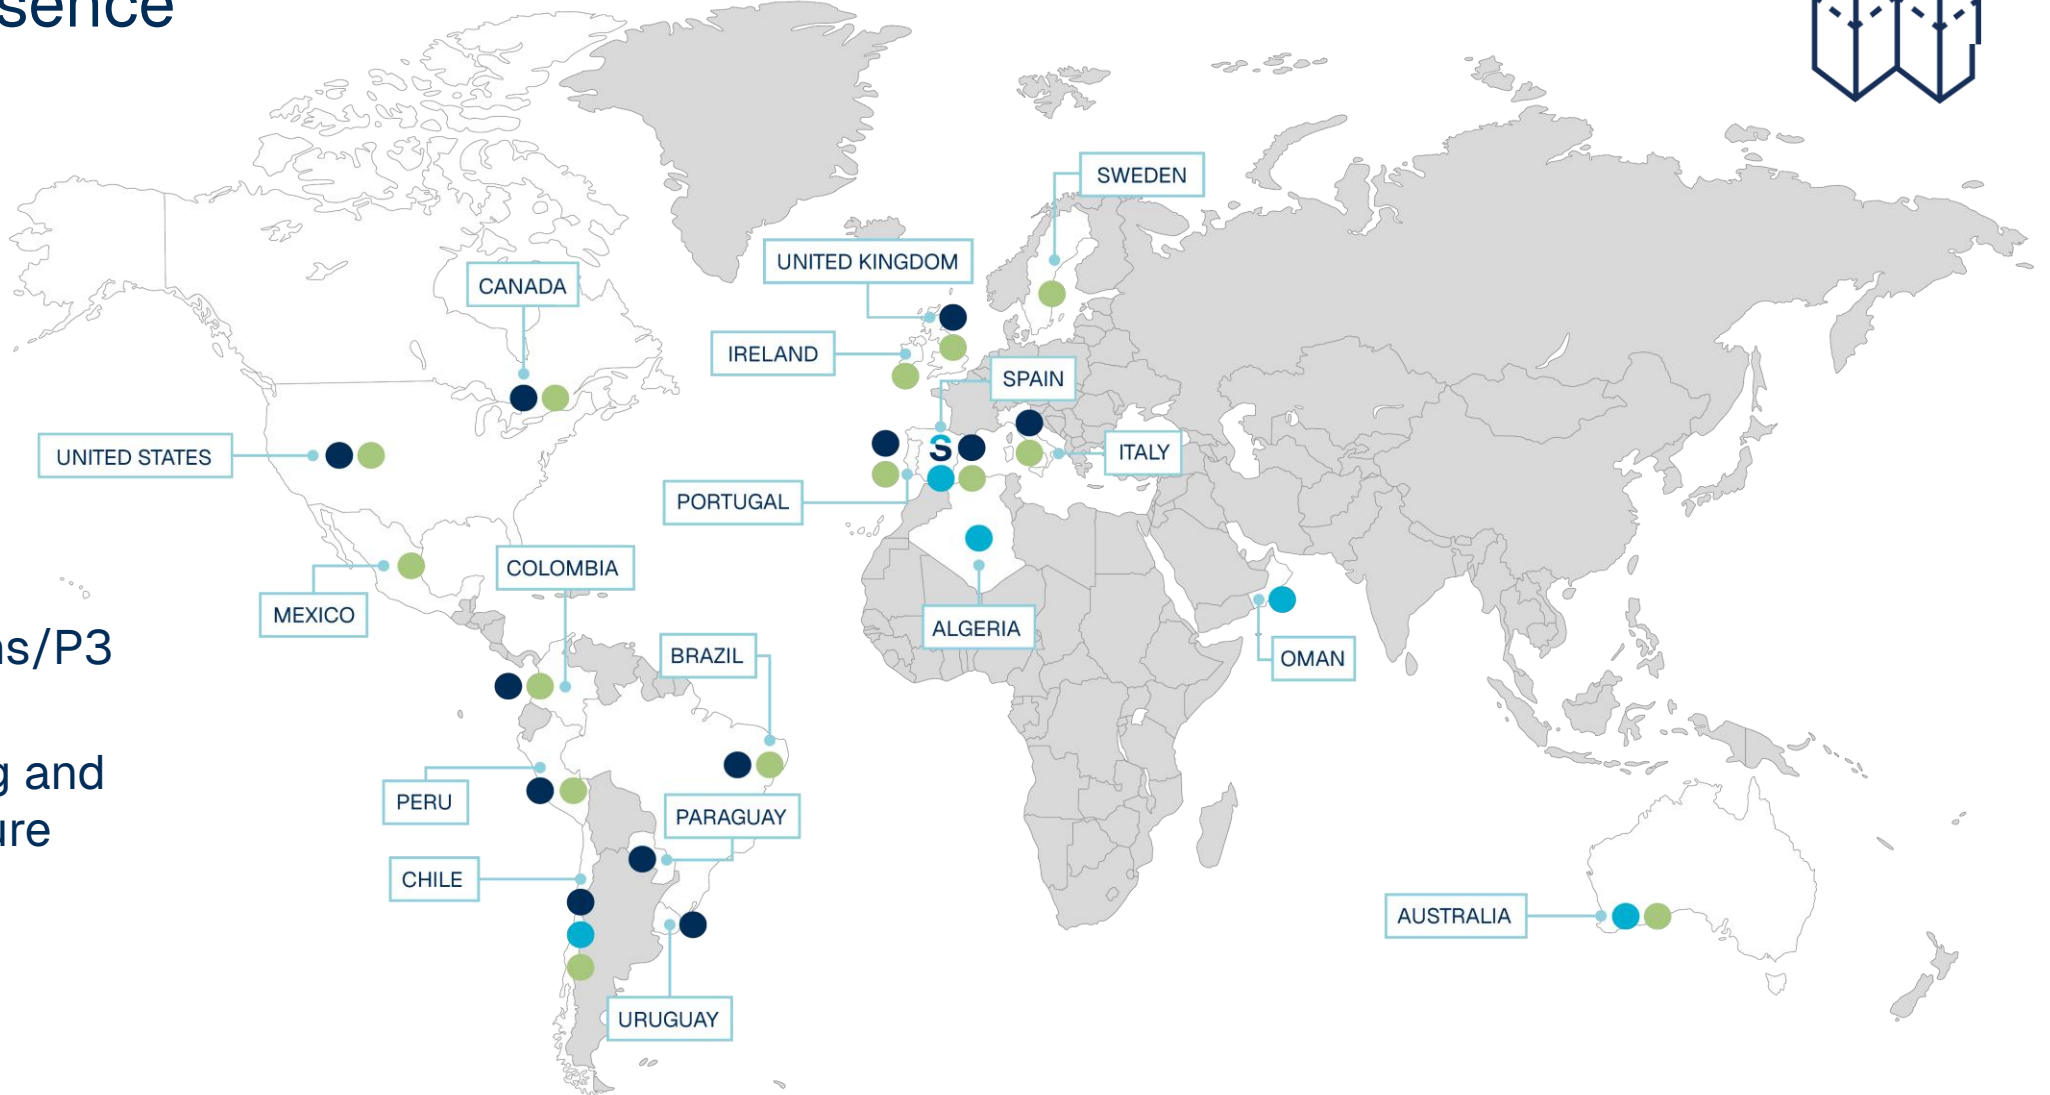

Three decades endorse our leading expertise across all phases of the integrated water cycle.

Efficiency resource management and innovation at the service of people.

# 24-27-33 Strategic Plan

Building a future **that matters**

## Roadmap

We are a globally distinctive company, recognized for our proven ability to secure and commission new concessions. Our vertical integration model ensures value creation across all stages of the asset lifecycle.

Our strategic vision for 2033 will allow Sacyr to develop its full potential to become the world benchmark in the development of greenfield projects.

Our ambition is to be leaders in transport, healthcare and water infrastructure development.

# 02. Who we are

# Strong present

Let's make it possible...  
For all.

Experts in the development of PPP projects and the construction of innovative, sustainable, high-value infrastructure, leveraging advanced technological capabilities.

We transform society with every project, generating a positive social, economic, and environmental impact.

Turning every challenge into an achievement that builds the future and enhances people's lives.

**+1.1 Bn€**

## Strategic asset

This is one of Italy's most significant infrastructure projects, considered a strategic national asset.

It guarantees mobility in the Veneto Region for nearly 500,000 businesses and approximately 5 million residents.

## State-of-the art campus

The new inpatient and technical block features 135,000 square meters across 10 floors, comprising over 700 patient rooms and 40 operating rooms. This sustainable building offers larger and brighter spaces, alongside a therapeutic garden.

## Efficiency and sustainability

The desalination plant is an example of sustainability, productivity, and innovation from its design, construction, and operation, and has been recognized with numerous awards.

# 03. In figures

# Concession-driven business model

## Key financial figures 2025

**1.36 Bn€**

Operating cash flow

**4.7 Bn€**

Revenue

**1.36 Bn€**

EBITDA

**165 M€**

Net profit

\* Does not include the accounting impact of the sale of three assets in Colombia

**100 %**

Operating cash flow / EBITDA

**29.1 %**

EBITDA margin

**93 %**

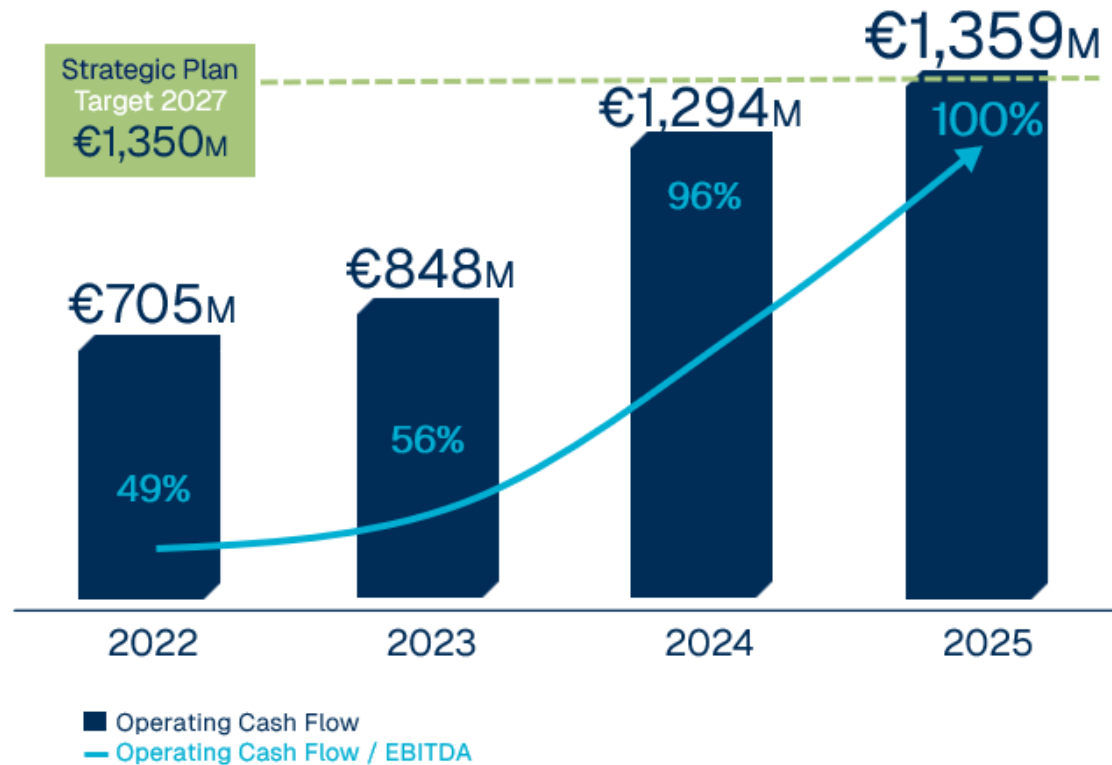

EBITDA from concession assets

**3.1 Bn€**

Market cap (as of Dec., 31, 2025)

# Steady commitment

The concession model maximizes cash flow generation beyond EBITDA

Given their low demand risk, most of our assets are classified as financial assets.

Within this model, EBITDA typically increases during construction, reaching its peak as operations begin, and then progressively falls to zero by the concession's end.

In contrast, operating cash flow starts once operations are underway, showing sustained growth throughout the concession's lifetime.

Consequently, it serves as the key indicator for understanding the business's true performance.

# 04. Strategic Plan

# Our roadmap

Accelerating growth in the **concessions market**

Leading platform for  
greenfield projects

Vertically integrated  
business model

Highly experienced  
management team

Environmental, Social,  
and Governance (ESG)  
Sustainability

# Growth in Concessions

Accelerating our development

We will accelerate our growth in the concessions market, focusing on expansion into English-speaking countries.

The company will triple its size by 2033, driven by increased investment in new concession projects.

We will establish a new company, named Voreantis, bringing in a partner with a minority stake.

# Financial discipline

Investment grade

Our resolved commitment to financial discipline allows us to continue the debt reduction process towards a positive net cash position.

Sacyr's focus was on achieving an investment grade rating which was accomplished in 2025 with

We strive to maintain the recourse net debt to EBITDA plus concession distributions ratio below 1.0x.

Recourse net debt

**<1.0X**

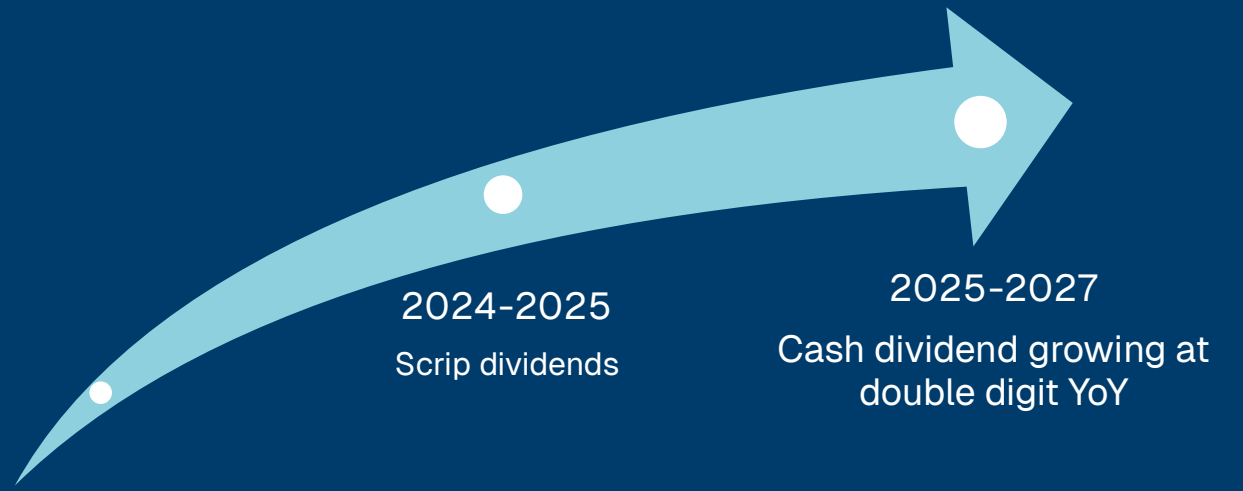

# Shareholder remuneration

Consistent dividend growth

In recent years, the company has continuously increased its dividend.

For the 2024-2027 period, the company will allocate at least **€225 million in cash** to shareholder remuneration.

The new remuneration policy is aligned with the projected increase in operating cash flow.

# 05. Sacyr Concesiones

# Global data

Over **30 years** of experience, we have developed more than **100 concession projects**, representing a **total investment of €44.7 billion**.

We are leaders in **greenfield project development** and the **third-largest transport concession developer globally**, according to Public Works Financing magazine (2026).

Young portfolio  
**+28 years**

average remaining life

M€ - Concesiones 2025

Revenue	1,892
Operating income	1,280
Construction income	612
EBITDA	755
EBITDA margin	59%

## Diversified portfolio

We provide comprehensive project management, delivering added value across all phases: design, construction, financing, operation, and maintenance.

Highways  
**+4,400 km**

Hospitals  
**+4,500 beds**

Travelers

**+1 Bn€**

Innovative  
project

It is one of the largest urban tunnels in Latin America. The project utilized innovative construction techniques and benefits over 750,000 people.

**9 km**

Sacyr  
Rail

**+1,000 km**

Spain's High Speed Rail

We specialize in the construction, rehabilitation, and maintenance of railway track and Overhead Line Equipment (OLE) for high-speed and conventional lines in Spain, Portugal, and Ireland.

We utilize state-of-the-art, certified, and approved heavy equipment, ensuring efficient and high-quality operations across any railway network.

Cavosa

**+400 km**

Tunnels

We have 60 years of experience in tunneling and large underground mining projects across more than 10 countries.

Our expertise spans all tunnel types—road, railway, metro, hydraulic, and mining—and all construction methods, from drill-and-blast to TBM (Tunnel Boring Machine) excavation.

Sacyr  
Maintenance

6.000 km

We maintain all types of road infrastructure, dams, airports, ports, and irrigation canals.

We prioritize safety, sustainability, and resilience, driving more efficient and adaptive operational models.

We manage nearly 6,000 kilometers of roads in Spain and work on over 2,900 structures.

Sacyr  
Proyector

40 years

Experts in engineering and comprehensive management of industrial projects, from the conceptual phase to commissioning, with experience in oil & gas, energy, chemicals, petrochemicals, LNG, aluminum, and low-carbon technologies. We offer high-value-added services to optimize investment, maximize plant reliability, and always ensure the highest safety standards.

# 08. Sustainability

An aerial photograph showing a winding asphalt road that curves through a dense, green forest. On the right side of the road, there is a large, irregularly shaped area of exposed red soil, suggesting recent construction or erosion. Several vehicles, including a blue truck and a white van, are visible on the road. The overall scene is a mix of natural greenery and human-made infrastructure.

# 24-27 Sacyr Sustainable Route

# Strategic collaborations

Together, we advance towards a greener and more responsible future.

## Alliances and agreements

We are members of SBTi's 'Companies taking action' group.

We are part of two working groups: Nature Business Ambition and the Climate Change Cluster

We participate in the Climate Ambition Accelerator for 1.5°C of the UN Global Compact

We renewed our commitment to the Biodiversity Pact, specifically under MITECO's 'Action' framework

We are members of the Spanish Green Growth Group since 2017

We collaborate with the Mondi Group's Paper Sacks Go Circular Initiative

## Case studies

The UN Global Compact has featured our best practices: "*Sacyr: Pioneering Sustainable Infrastructure through Natural Capital Initiatives*" on its Success Stories Portal

The World Business Council for Sustainable Development (WBCSD) has published our case study in its sectoral report: "*Assessment and acting on nature-related issues: Insights from business case studies in the built environment system*"

# Climate Change

Awarded the highest 'A' rating in CDP Climate for the fourth consecutive year.

Emission reduction targets **approved by SBTi**.

Project-level **climate risk analysis**, aligned with TCFD.

**Sustainable Finance Framework** with KPIs linked to emission reduction.

**48%**

from Renewable Energy

**-25%**

Reduction in Scope 1 and 2 emissions since 2020

**-20%**

Reduction in Scope 3 emissions since 2020

# Natural Capital

Our biennial **Natural Capital Report** is a benchmark in business forums.

First company in the sector to utilize an ecosystem measurement tool with satellite imagery, **recommended by TNFD**.

Analysis of **nature-related risks and opportunities**, following TNFD recommendations (TNFD Adopters).

**117**

restored and protected hectares

**+102,000**

trees planted in our projects

**142**

hectares offset in our projects

# Water

First IBEX35 company to certify its Water Footprint in accordance with ISO 14046.

**We are Water Positive:** our desalination plants generate over 263 million m<sup>3</sup> of water annually.

We are included in **CDP's leadership group** for the **third consecutive year** due to our enhanced water protection and security.

**-20%**

Water consumption vs 2024

**3M**

People gain access to drinking water thanks to our desalination plants

**-18%**

Water consumption in water-stressed Areas vs. 2024

# Circular Economy

Sacyr's **Zero Waste Plan**, the company's circular economy roadmap.

**First company in Chile** to achieve Zero Waste certification.

Three circular initiatives highlighted in CEOE's **2025 Catalogue of Spanish Companies' Best Practices**.

**99%**

Recovered Construction and Demolition Waste

**-11%**

Hazardous Waste Generation vs. 2024

**99%**

Recycled, Reused, and Recovered Waste

# 09. #WeAreSacyr

**sacyr**

# Purpose

The only progress that truly matters is the one that enables us to advance and create value. It is progress that can be sustained over time and reaches everyone. And we have an unwavering commitment to make it possible.

# Mission

We make the progress we deserve a reality. By imagining, developing, and creating the infrastructure that drives us forward. With rigor, experience, and an unwavering commitment, always

# Values

Practical Imagination  
Lasting Commitment  
Bold Determination  
Positive Impact  
Honest Progress

# Diversity

We build a **diverse, equitable, and inclusive** workplace. We promote **equal opportunities** and professional development, regardless of individual characteristics such as age, gender, or disability.

## Our initiatives

Internal programs and projects  
(Powerful Women, Sacyr Women or Sacyr de la Mano)

Training and awareness initiatives with over 10 key dates on our calendar.

Strategic alliances

Comprehensive measurement through the Global Diversity Map

We showcase this commitment through awards, certifications, and recognitions, including:

Ministry of Labor and the  
Presidential Council for  
Women's Equity of  
Colombia

**ISO 30415 Diversity and Inclusion standard**, making us the first Spanish company to achieve this

# Safety, health and well-being

We are committed to the **safety and health** of our professionals and partners

We foster a commitment to safety through our global Preventive Culture Awards.

We are at the forefront of the latest technologies to achieve the highest standards of health and safety for our professionals and partners.

Sacyr Health promotes a safer and healthier work environment through actions that improve the quality of life for our professionals. This initiative, which has effect on over 1,000 professionals, is structured around four key focus areas:

- Physical well-being
- Emotional well-being
- Financial well-being
- Social and Environmental well-being

# Governance

Our corporate governance practices are designed to ensure the company's effective management and foster shareholder engagement and the exercise of their rights. Furthermore, they aim to provide all stakeholders with maximum transparency regarding Sacyr's operations, financial performance, and its environmental, social, and governance (ESG) standing, thereby maximizing the company's sustainable value in alignment with its Purpose, Mission, Values, Vision, and Principle

# Innovation

Innovation guides our approach to progress. It enables us to explore new ways to design, build, and operate infrastructure, always with the ambition to generate greater value for the regions where we operate and their residents.
