

## **PRESS RELEASE**

# **SACYR DELIVERS TWO KEY HIGHWAY SECTIONS IN LUBBOCK, TEXAS, U.S.**

- **These projects bring Sacyr's total road infrastructure developments in the U.S. to 12, representing a cumulative investment exceeding \$1.3 billion (€1.11 billion).**

**Lubbock, April 23, 2026.** - Sacyr has announced the completion of construction on two significant highway projects in Lubbock, Texas: the FM 1585 highway (the new Loop 88) and the reconstruction of US 62. Both contracts, awarded by the Texas Department of Transportation (TxDOT), had a combined value of \$180 million.

With the successful delivery of these two roadways, Sacyr has now completed **12 road infrastructure projects across the United States** – four in Texas and eight in Florida. This achievement further solidifies Sacyr's strong presence in the U.S. market, with a cumulative investment exceeding \$1.3 billion (€1.11 billion).

### **FM 1585**

**The FM 1585 project in Lubbock** is a critical component of the **Loop 88** program and a cornerstone of the area's transportation infrastructure. This development involved transforming a four-mile, two-lane section of FM 1585 (also known as 130th Street) into a modern six-lane freeway, complete with frontage roads, bridges, and ramps.

These significant upgrades are designed to accommodate the region's increasing traffic demands, enhance motorist safety, and significantly reduce congestion.

## **PRESS RELEASE**

### **US 62**

The comprehensive reconstruction of **US 62** (19th Street) covered a vital 3.3-mile urban corridor, crucial for downtown Lubbock's connectivity between Memphis Avenue and I-27.

This extensive undertaking encompassed significant upgrades to the drainage system, sidewalks, asphalt paving, traffic signals, and street lighting. The completed project is expected to substantially **enhance safety**, **reduce traffic congestion**, and **bolster mobility** capacity for thousands of daily users in the area.

### **Sacyr's Commitment to U.S. Infrastructure Development**

Sacyr commenced operations in the U.S. market in 2018 and has since been awarded a total of 16 projects across the country.

In 2024, Sacyr, as part of a consortium, secured its **first major transportation infrastructure concession contract in the U.S.**: a section of the I-10 highway in Louisiana. This landmark project will involve an overall investment of €3 billion, with over €2 billion specifically allocated to the construction phase.

As outlined in its 2024-2027 Strategic Plan, Sacyr is committed to further expanding its operations in key English-speaking markets, including the U.S., Canada, the United Kingdom, Ireland, and Australia.
