

## **PRESS RELEASE**

# **SACYR COMPLETES VANDERBILT BEACH ROAD EXTENSION IN FLORIDA (U.S.)**

- **Sacyr Engineering and Infrastructure has delivered an 11 km road section representing an investment of \$159 million (€137 million).**
- **This is the company's thirteenth infrastructure construction project completed in the United States.**

**Miami, June 16, 2026.-** Sacyr has completed construction of the **Vanderbilt Beach Road extension in Florida (United States)**. The **11 km road section**, comprising 9.4 km of new construction and 1.6 km of extension of the existing road, was completed two months ahead of contract schedule and had a budget of **\$159 million (€137 million)**.

The new corridor, which opened to traffic on June 12, strengthens **connectivity and mobility in southwest Florida** and supports the region's urban and economic development.

With **Vanderbilt Beach Road**, Sacyr has now delivered 13 road projects in the U.S.: nine in Florida and four in Texas.

### **Sustainable and resilient infrastructure**

The Vanderbilt Beach Road extension is a **strategic project to improve connectivity and mobility in Collier County**, creating new road infrastructure that strengthens the east-west connection in one of Florida's fastest-growing areas.

The project included the **construction of bridge structures and drainage systems** designed to meet stringent hydraulic and environmental standards, as well as the

coordination and relocation of utilities to support the corridor's development. It also included paving, lighting, signage and safety systems.

The completion of this project demonstrates **Sacyr's ability to deliver complex infrastructure projects in the U.S. market**, driven by innovation and teamwork.

### **Commitment to infrastructure development in the U.S.**

Sacyr began operating in the U.S. in 2018 and has since been awarded 16 projects in the country.

In 2024, Sacyr, as part of Calcasieu Bridge Partners consortium, was awarded its first major transport infrastructure concession contract in the United States: a section of the I-10 highway in Louisiana. The project will require an investment of €3 billion, of which just over €2 billion corresponds to construction.

As part of the objectives set out in its 2024-2027 Strategic Plan, the company will expand its activity in strategic English-speaking markets, including the U.S., Canada, the UK, Ireland and Australia.
